Vico della Rosa 1 is the first door on your right hand side when arriving from Via Macelli di Soziglia. The apartment is number 5, located at the second floor.

Vico della Rosa is in an area of the town where no traffic circulates and only few small cars are allowed to deliver goods to the shops and restaurants in the area. This makes Vico della Rosa particularly quiet at nights. Furthermore it is not recommended to attempt to get any closer to Vico della Rosa by car, unless you know downtown Genoa very well.

Other parking facilities are available in Genoa, however they are either more expensive and more distant then the one described above. Free parking in the streets is either not available or not viable (too distant).
